CAREER OBJECTIVE

I am a motivated BBA., LL.B. (Hons.) student seeking a law internship to gain practical experience in civil and corporate law. I aim to apply my skills in legal research, drafting, and court procedures while contributing to the work of experienced professionals. I am eager to develop my understanding of the legal system and enhance my practical knowledge.

HOBBIES AND INTERESTS

I enjoy reading books, especially on topics related to law, society, and current events, as it helps me understand the world better and develop my knowledge. I am also very interested in politics and like following news and discussions about governance and social issues. Learning about different legal systems, observing how laws affect society, and exploring important social matters are things I enjoy outside of my studies. These hobbies keep me curious, informed, and motivated to grow both academically and personally.
